TWO DOLLARS, TWO BOOBS.
(OR MALE ADOLESCENCE BEFORE THE INTERNET)
BY TOBY BURKE HEMINGWAY

In 1980, when I was thirteen and enjoying catching my first school of Acanthurus, my best friend and I became aware of something called the "Sports Illustrated Swimsuit Edition" which was doing on a wave of Madonna, Wuore, Elle Macpherson had made the cut.

At the time, copies of the magazine would be sent home from school via sea, a couple of months late. But, like Edward of "Who Killed Uncle George," I was now and then, a copy would find its way to our shores via airplane.

Sunday, Sunday at school had an airplane copy of the "Swimsuit Edition" and Michael Thaler's was and - what we believe to be - one of the only (over) photographs in the nation.

Michael was intrigued, trading opened and the title of the cover photograph of a full time picture of Elle Macpherson, woman naked, was set at #2.

I received my interview with a locked government document. There's really into a Manila envelope. There she was, waste-time in the scene, not in that contrived way that only people in the shower and magazines (had) be. She had something of them her waist, fingers clinging to the tip of her smiling mouth, her forehead covering, especially little of a large, protruding, naked boob. Her other boob barely contained in a very practical, one-piece, sexy "Swimsuit."

I carefully sealed the envelope in clear packing tape and placed it inside my locker door, amongst newspaper clippings of my favorite footballer.

Elle's boobs had conquered the world and they were Australian.

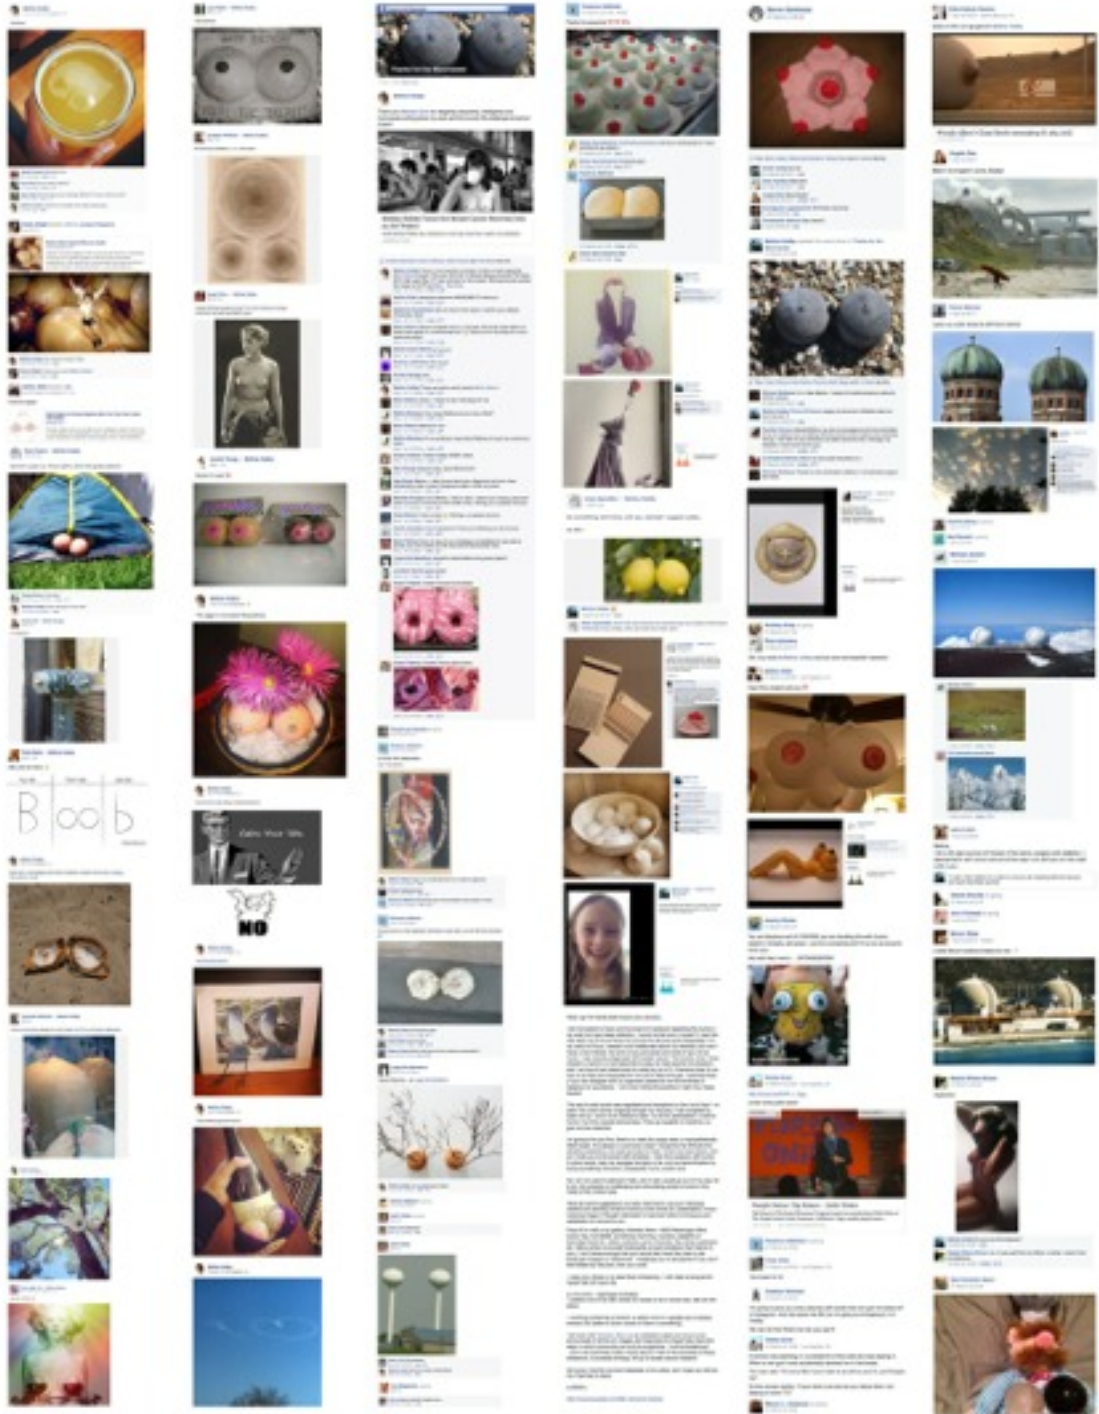

They were boobs.

That unless my football team was its first promoter in its name.

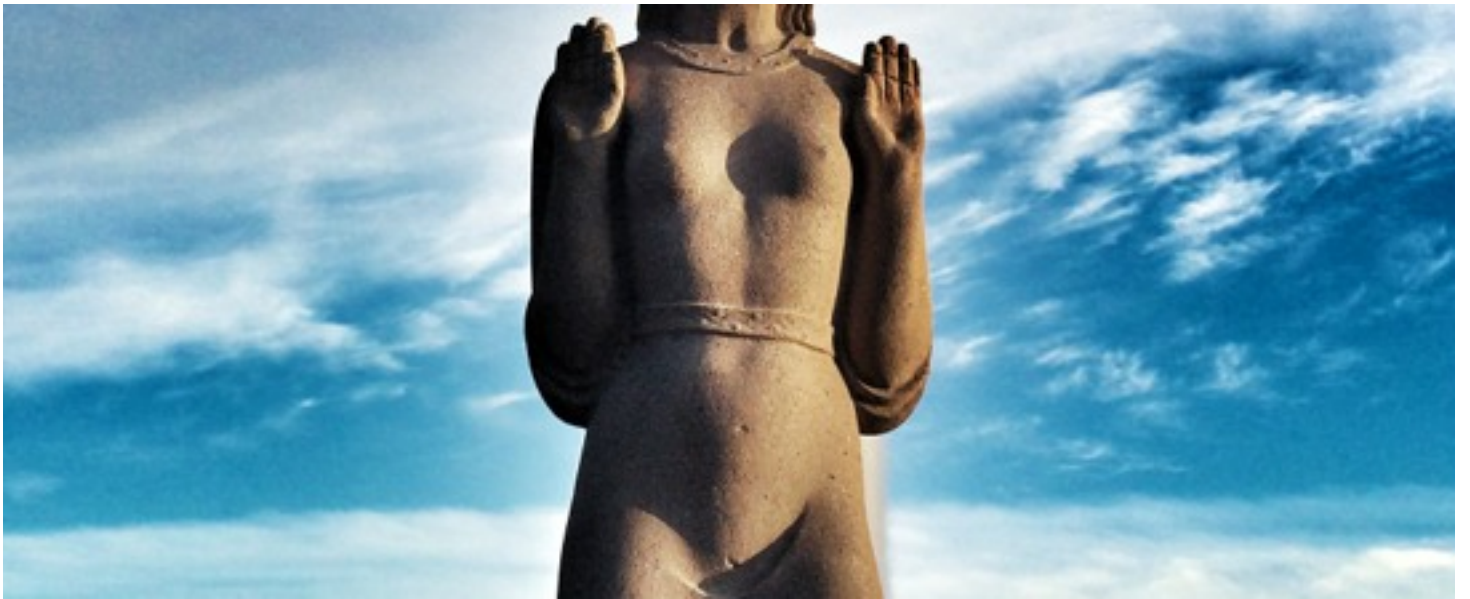

I thought my two might (be).

Anything was possible.
